Update - Electronic visa for passengers traveling to Cuba

Update:

- The acceptance of physical and electronic tourist cards at international airports is extended until **June 30th, 2025**.

Dear Travel Agencies,

Please be informed that, **as of July 23rd, 2024**, the Ministry of Foreign Affairs of Cuba has implemented an eVisaCuba. This is an online system for the digital management of tourist visas for passengers traveling to Cuba.

To access this service, the passenger has the following options:

- In person at the consulate, Monday through Friday from 9:00 a.m. to 12:00 m.d.
- Through the platform in the following [link](#).

The issuance of this visa may take up to 72 business hours.

Note: Until **June 30th, 2025**, paper and electronic tourist cards will be accepted at international airports. For passengers who present themselves at the airport without an electronic card, a physical tourist card must be sold to them until this date.

Important considerations:

- When applying for electronic tourist visas through the platform, the passenger must first make the payment to the Consulate and then attach the proof of payment, accurately filling in the requested data.
- It is of utmost importance that, when applying for the visa, passengers enter their e-mail address correctly, as this will be how they will receive the electronic visa code. The electronic visa is for personal and non-transferable use.
- It is valid for one year and a single entry.
- Tourists may remain in Cuban territory for 90 days, extendible.
- The visa is effective upon filling in the personal data on the [D'VIAJEROS](#) platform.
- In case of irregular operations or flight changes, the same electronic visa originally managed can be used.
